System Blonde
High Performance Powder Lightener

Up to 7 levels of lift.

System Blonde Powder Lightener is a high performance powder bleach suitable for all types of bleaching techniques. The gentle formula can be used with 3%(10vol), 6%(20vol), 9%(30vol) and 12%(40vol) developers to achieve high lifting power with optimum hair condition. System Blonde Powder Lightener contains guar gum to help protect the scalp, preventing damage. System Blonde Powder Lightener is available in both BLUE and WHITE powder. For best results use ASP Crème Developer. For on scalp use, we recommend that only 3%(10vol) or 6%(20vol) is used.

MIXING INSTRUCTIONS Mix 1 SCOOP of System Blonde Powder Lightener with 2 SCOOPS of your chosen ASP Crème Developer. You may vary the consistency by adding slightly different amounts of developer according to the technique you wish to use, i.e. full head, foil or cap highlights, etc.

APPLICATION DO NOT wash the hair before lightening.

FULL HEAD System Blonde Powder Lightener should be applied to the mid-lengths and ends first and then to roots.

RE-GROWTH Apply System Blonde Powder Lightener to the roots only. For on-scalp application DO NOT COVER. DO NOT USE HEAT.

DEVELOPMENT TIME System Blonde Powder Lightener is active for up to 60 minutes. For very dark hair processing time may take up to 50 minutes. Light bases may require only a short processing time. Check frequently. When the required lift is achieved rinse thoroughly and gently shampoo the hair.

REMEMBER Resistant hair will need a longer development time than porous hair. Always check development of System Blonde Powder Lightener during processing. When the required lift is achieved rinse thoroughly and gently shampoo the hair.

HIGHLIGHTING Do not wash the hair before application. Use desired method of highlighting, i.e. foil, meches, highlighting cap, etc. Apply System Blonde Powder Lightener liberally to the hair. Check development time frequently.

WARNING FOR PROFESSIONAL USE ONLY. DO NOT apply to the scalp if there are any abrasions or signs of irritation. DO NOT mix the product in a confined space and avoid inhaling the powder. If the product gets into the eyes wash immediately with cold water, consult medical attention if irritation persists. Always wear protective gloves. Keep out of children's reach. Can cause eye irritation, consult medical attention if irritation persists. Contains Persulfates. Store in a cool dry place.
