

System Blonde
Charcoal Powder Lightener

Unique charcoal formulation purifies the hair whilst neutralising yellow and orange tones for the brightest blonde results. Guar Gum, Zea Mays and Corn Proteins protect, nourish and hydrate the hair & scalp during the lightening process, making it perfect for all on & off-scalp techniques. Mix with ASP Crème Developer for incredible lifting power, maximum control & superior condition.

MIXING Mix 1 PART of System Blonde Powder Lightener with 2 PARTS of your chosen ASP Crème Developer.
For ON-SCALP use, we recommend that only 3%(10vol) is used.
For OFF-SCALP use, 3%(10vol), 6%(20vol), 9%(30vol) & 12%(40vol) can be used.

APPLICATION DO NOT wash the hair before lightening.

FULL HEAD application – apply to the mid-lengths & ends first, then to the roots.

RE-GROWTH application - apply to the roots only.

HIGHLIGHTING - Use desired method i.e. foil, meches, highlighting cap, etc. & apply liberally to the hair.
For ON-SCALP application - DO NOT COVER. DO NOT USE HEAT.
For OFF-SCALP application - gentle heat 37-39 degrees may be used if required.

DEVELOPMENT TIME For very dark hair processing time may take up to 50 minutes. Light bases may require only a short processing time. CHECK FREQUENTLY. Always check development of System Blonde Powder Lightener during process. When the required lift is achieved rinse thoroughly and gently shampoo the hair.

NOTE Due to the colour of the lightening powder it may be difficult to see when desired lift is achieved - use damp cotton wool to remove some product from the hair to check on development.

NOTE Resistant hair will need a longer development time than porous hair.

WARNINGS FOR PROFESSIONAL USE ONLY. A sensitivity test is recommended 30 minutes before application. Hair colorants can cause severe allergic reactions. Read and follow instructions. This product is not intended for use on persons under the age of 16. Temporary “black henna” tattoos may increase your risk of allergy. Do not colour your hair if: — you have a rash on your face or sensitive, irritated and damaged scalp, — you have ever experienced any reaction after colouring your hair, — you have experienced a reaction to a temporary “black henna” tattoo in the past.’
